

CARDIODYNE II

The New British Made Exercise Testing System

All aspects of test environment under software control, providing a highly flexible approach towards present and future requirements.

Name, speed, elevation and workstage duration for each of ten protocols may be stored for future use or modification.

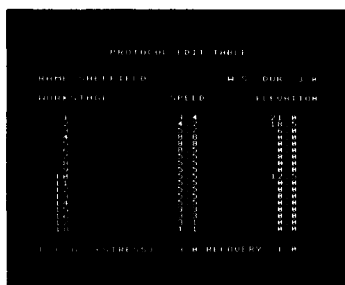

Clear, easily read, display of speed, elevation and elapsed time. Treadmill parameters displayed in either Metric or Imperial units.

Incorporates the STUDIO 350 Electro-cardiograph. Automated twelve lead E.C.G.'s at user defined intervals throughout the test/recovery periods.

Large on-screen display of elapsed time with automatic reset for recovery period. Current workstage and total test duration also displayed.

Final report generator available; output format may be designed to meet individual requirements.

The CARDIODYNE II provides external control signals for use with automated blood pressure measurement systems. The system is primarily intended for use with treadmills and ergometers from the PAR MEDEX range but may be interfaced to other suitable devices.

FEATURES

- Totally software controlled
- Freely adjustable protocols
- Large C.R.T. display of test parameters
- Automatic 12-lead ECG facility
- Elapsed time counter. Auto reset for recovery period
- Choice of exercise device
- Test report option

monitoring system

Diascope 2
twin channel monitor
in 16 configurations

Simonsen & Weel ... care

Defibrillators have to work without fuss. The simple 1-2-3, step-by-step, select energy-charge-fire, routine of the DEFI 2 is made all the easier by the clear way in which the two modes of operation, internal and external, are separated by colour coding. This ergonomic defibrillator will synchronise with any standard ECG monitor having a 1 volt output or can be integrated with any of the S&W Diascope 2 monitoring range. Mains and fail-safe battery versions allow for dedicated departmental use or emergency-trolley mounting. Whether on the ward or in the theatre Simonsen and Weel care.

Simonsen & Weel Ltd. Ruxley Corner, Sidcup, Kent DA14 5BL Tel: 01-309 0433 Telex: 896328

"Value judgements about food are being made all the time . . .

ABC OF NUTRITION

A STEWART TRUSWELL

. . . they are nearly always subjective and usually wrong." A Stewart Truswell, Boden professor of human nutrition at the University of Sydney, separates fact from fallacy in the *ABC of Nutrition*, a collection of articles from the *BMJ*. This illustrated guide offers the general medical reader a refreshingly down to earth review of all aspects of nutrition – from anorexia to obesity, infant feeding to dietary guides for the elderly – and will be invaluable for any doctor wishing to advise his patients about their eating habits (or even to revise his own).

Chapters include:

- Nutrition for pregnancy
- Enteral and parenteral nutrition
- Vitamins
- Malnutrition in the third world
- Therapeutic diets
- Reducing the risk of coronary heart disease
- Food sensitivity
